

UQFC - U14-18 - Counter Attacking - Session 2

Category: Academy: Counter/Reactive pressure
Difficulty: Difficult

Liam Mulcahy, Brisbane, Australia

Description

Main Principle: Counter Attacking

Behaviour: Breaking forward at speed together

Why? To take advantage of the opposition's organisation: Create goal scoring opportunities quickly

Positional Play (15 mins)

Positioning Game 3v3+2

Area - 25x20m

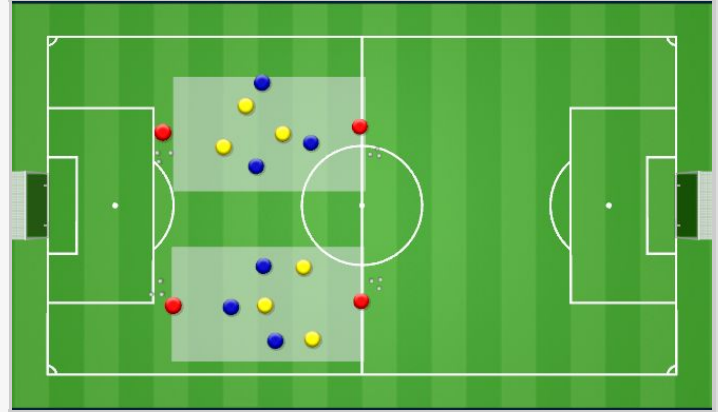

Time - 5 games of 2-3 minutes

Action - Counter Attack

Behaviour - Breaking forward at speed together

Rules:

- 3v3 within the pitch with 2 neutral targets (who play to the team who passed them the ball)
- Point is scored when a team can play from one neutral to another without dispossession.
- When the defending team steals the ball, they become the attacking team and aim to play neutral to neutral.
- Rotate neutrals after each game.

Coaching:

- Encourage quick and direct attacking play
- Direct all attackers to finish inside the 18-yard box (flood)
- Allow attackers to restart the counter-attack if the ball goes out of the red area in the second and third sets

Water Break:

5 minutes

Allow any extra individual warm-up needs in the 2-minute recovery between sets

Game Training (25 mins)

Game Training 8+GK v 8

Area - Half-size pitch

Time - 25 minutes (no breaks)

Organisation - Blue team score into the big goals and the Red into the small goals (use poles/cones)

Start Positions - With the Red team GK and another when the Red team scores (introduce later)

Team Task:

- Today's session is all about us regaining the ball from the opposition and counter-attacking their goal quickly and together (flooding) to score

Player Tasks:

- Group task for players to exploit space instantly
- Unit task for midfielders to play forward fast
- Individual player tasks around, positioning to receive and profiles (body shape) to get forward effectively within our 4-3-3 model

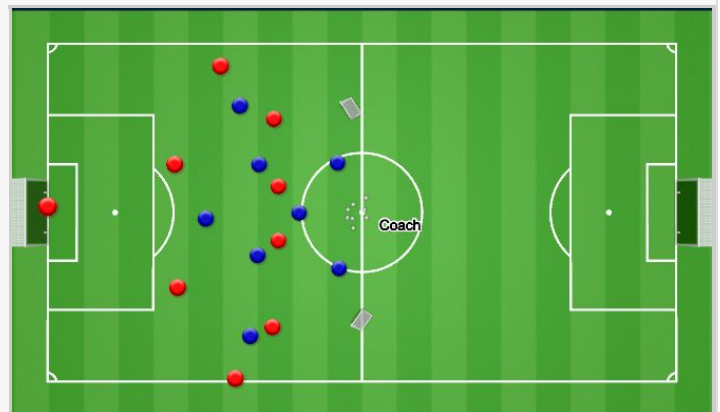

Coaching

- Set your team tasks using open questioning (guide them to the purpose of the session)
- Player task interventions use task (guide), ask (questioning), show (demonstration) and tell (over the top) interventions
- Interventions should be 10-20 seconds (be concise) and use the ball in the picture
- Use a range of verbal delivery (loud and quick) to motivate the counter-attacking action and behaviour if needed

Water Break:

6 minutes

Reinforce counter-attacking moments with midfielders and attackers during this break

Game (25 mins)

Medium Size Game 8+GK v 8+GK

Area - as diagram

Time - 3 rounds of 10, 9 & 8 minutes (breaks 2 minutes and 1 minute)

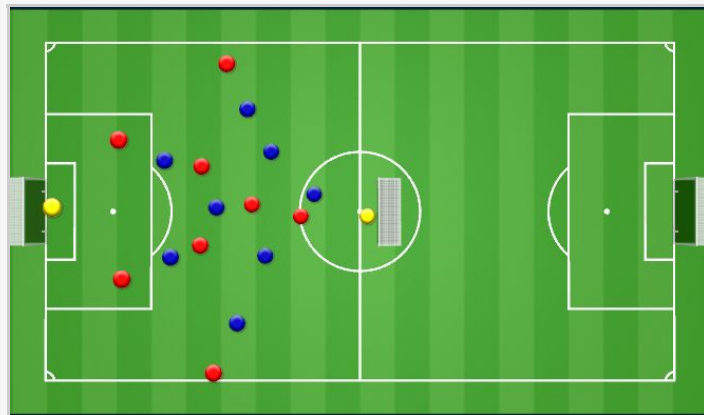

Focus - Defending

Coaching:

- -Reinforce the player action to recover behind the ball into the defensive organisation (4-1-4-1), 2-1-4-1 here
- -Be direct and clear to any player not performing the above
- -Praise team and individual moments when players have displayed great defending (recovered together, patient, stole the ball)

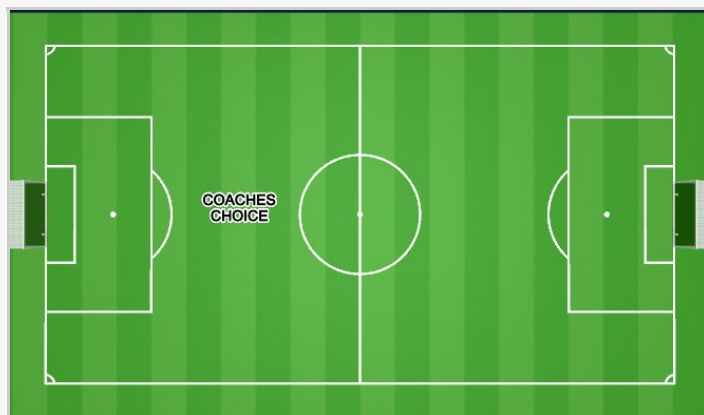

Summary:

- Take 3/4 minutes at the end to discuss the session focus with the players
- Ask them about the key defensive actions and why these are important
- Challenge them to show this in the match at the weekend, and hold them to it

Set Pieces (15 mins)

Coach can pick any set piece they may want to work on based on their teams performance within particular set pieces. Refer to the game model for these.
