

UQFC - U14-18 - Restarting - Session 2

Category: Tactical: Inventive play

Difficulty: Difficult

Liam Mulcahy, Brisbane, Australia

Description

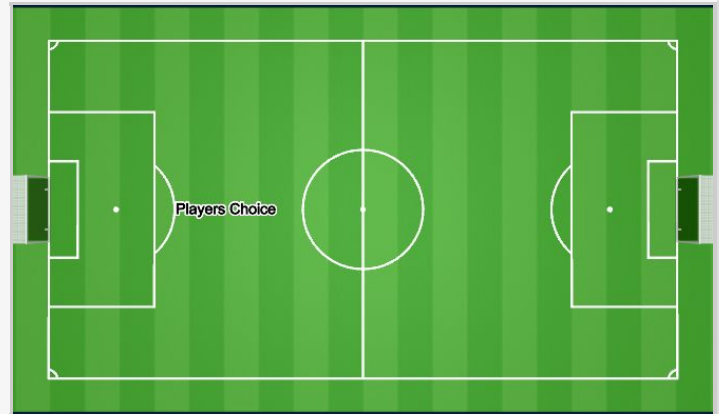

Main Principle: Restarting

Behaviour: Play forwards, retaining possession and scoring

Why? When we have an opportunity to control the game; As we kick off, goal kicks, throw-ins & free kicks

Player's Choice Warm Up (5 mins)

Players with consultation with the coach to choose their warm up.
Warm up needs to be dynamic, with an increase in intensity.
Also needs to be fun, and interactive with teammates.

Game Training (30 mins)

Game Training (9v9 adjust to suit)

Area - Half-size pitch and narrower width

Time - 25 minutes (no breaks)

Organisation - Normal football game rules

Team Task:

- Today's session is all about when we restart the match from throw-ins, corners, and free-kicks

Player Tasks:

- Can we progress the ball forward effectively from throw-ins in our defensive half?
- Can we retain possession from free-kicks in our defensive and middle third?
- Can we be effective from throw-ins and free-kicks in our attacking half?

Organisation:

- Control the restarts to allow players to experience the moments
- Create the IF moments (free-kicks) during the Game Training
- Allow players to redo the restart player tasks a few times (replay)

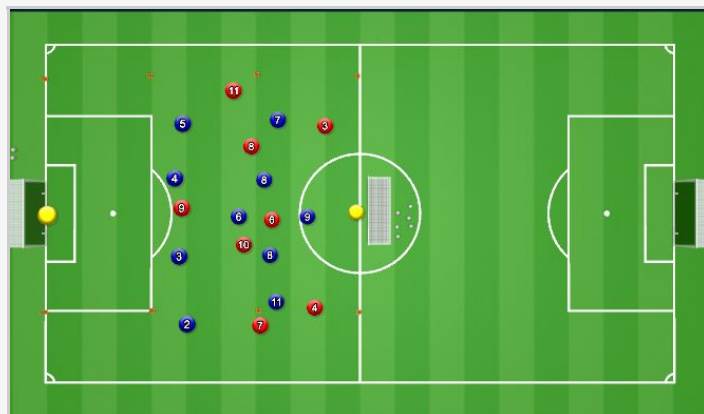

Coaching:

- Throw-ins in our defensive half are thrown forward to the head of the wide player to flick on, and the attacking midfielder/striker reacts off it, as this happens, the team architecture must be compacted into this area
- Free-kicks in our half are to retain possession, play forward into the midfield or get a defender into the midfield area (overload) do not play these backwards or sideways
- Throw-ins in our attacking half are to player's feet 9 in the box) with surrounding players running off and disrupting the opposition, ensure that the team's architecture is compacted into this area
- Free-kicks in our attacking half, deliver as corner set-ups, always must be in swinging delivery, if in shooting distance, allowing players to be creative to score
- Kick-offs have the three strikers on the ball and two attacking mids close behind, take the ball forward and break their midfield line and attack their defence, back four and deeper midfielders be compact supporting behind the front five
- Reinforce that players take their time with these restarts (except counter-attacking opportunities or chasing the match outcome)
- Challenge players to be creative with attacking free-kicks
- Maintain the restarts in our defensive half to ensure no mistakes in giving back possession to the opposition due to not doing as instructed and through poor team architecture
- Have the CBs take the throw-in in the GT so the FBs become the wide players

Water Break:

Duration 5 minutes

Both coaches discuss with the key players involved in throw-in and free-kick restarts

Game (30 mins)

Game 9v9

Area - As diagram (same as GT)

Time - 12 minutes (1 minutes rest)

Action - Restarts

Behaviour - Retain possession or be effective

Rules:

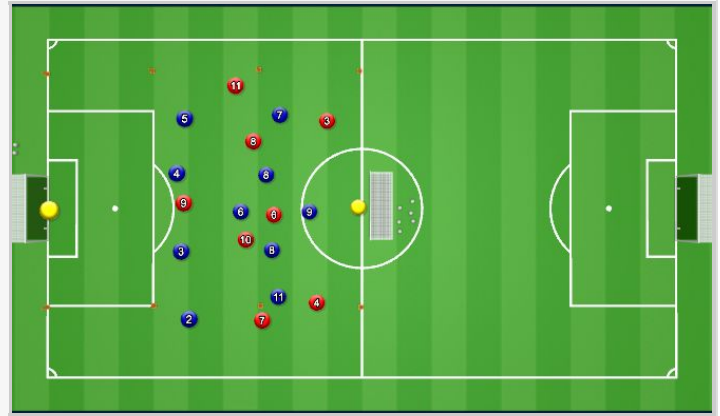

- Normal match rules

Coaching:

- Observe evidence of restarts behaviour from the Game Training
- Give free kicks at any time (IF moments)
- Stay off the pitch, you are not a player, you are in their space, and you can't observe the full picture

Recap:

Group discussion at the end of the session asking divergent questions about the different game model restart behaviours and moments

Set Piece Game (15 mins)

Set Piece Game

Area - Attacking 3rd

Time - 15 min

Rules:

- Coach calls either a corner, direct free kick, indirect free kick, throw in or penalty
- The team the coach calls, is the attacking team. Once the set piece is taken, play is live till either the GK has full possession of the ball, a goal is scored, or the defending team clears the ball beyond the attacking 3rd.
- Ensure more corners than other forms of set pieces, as previous ones were practiced.
- Ensure even amount of chances per team.

Coaching:

- Ensure set pieces are delivered to a high standard, and players are showing intensity throughout game.

Losing team packs up the gear. Winning team gets a photo of them in the teamchat.
