

UQFC - U9-13 - Restarting

Category: Tactical: Full game form

Difficulty: Moderate

Liam Mulcahy, Brisbane, Australia

Description

Main Principle: Restarting

Behaviour: Play forwards, retaining possession and scoring

Moments:

When we have an opportunity to control the game

As we kick off, goal kicks, throw-ins & free kicks

Restarting Rondo (20 mins)

Rondo (Restarting) - 4v2 / 4v1

Area - Rectangle shape x two

Time - 3 x 4 minutes with 2 x 30-second Speed Agility

Action - Restarting

Behaviour - Retain possession or be effective

Rules:

- Defenders hold the bibs and drop to represent the change of possession behaviour, as in a match (representative learning)
- The coach blows their whistle for a free-kick at any time during the rondo, and the player that has the ball touches it with their hand and plays a free kick (restart)
- Defenders cannot steal the ball on a free kick

Progression:

- In sets two and three, the defenders chase into the other rondo area when the coach blows their whistle for a free kick

Speed Agility - First Round

- In pairs, one player puts a bib down the back of their shorts (tail), the other player tries to steal it, and then swap roles (30-seconds)
- In pairs, place the bib on the ground between each other, players take turns in shouting GO, and the first player to pick up the bib wins (30-seconds)

Speed Agility - Second Round

- In threes, bib on the ground, one player defends the bib from the other two who try and steal it, and the defender can tag them to get a point, if an attacker is tagged twice, then the defender has won, players rotate roles
- In threes, one player puts the bib down the back of their shorts and uses one of the other players (face and hold shoulders) to defend from the other player trying to steal it, players rotate roles when they get the bib

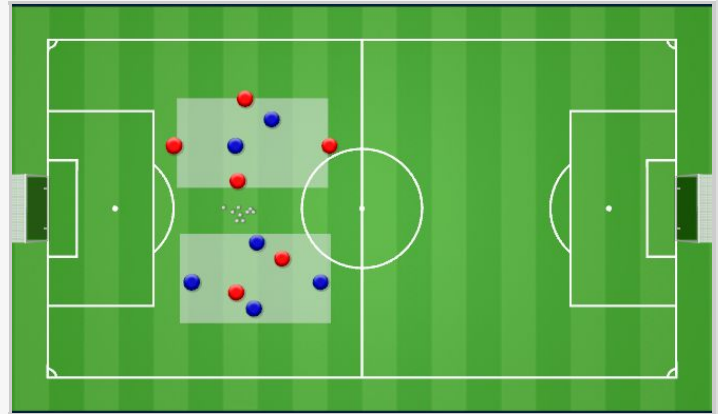

Coaching:

- Observe players restarting the play/retaining possession
- Maintain the chasing and trapping defensive behaviour of the defenders

Drink Break:

Duration 4-minutes

Players use for individual warm-up needs

Positional Play (25 mins)

Positioning Game

Area - As diagram (two areas of 20x12m)

Time - 6x2-minute sets with 1-minute rest in between

Action - Restarting

Behaviour - Retain possession or be effective

Rules:

- Divide the players into Three teams (ok if uneven) and one team to defend.
- One team restart (free-kick) in their area from anywhere behind halfway (player must put ball on their hand to signal free kick).
- Attacking team aim to score, defender must win the ball and dribble beyond the end line.
- After 2 min, players swap roles.
- During the game, the coach can blow their whistle to signify a free kick, if the ball is in the attacking half then it's direct, and non-direct in the defending half.
- Swap defending team after each round and score

Coaching:

- Observe the behaviours of the players when restarting play (i.e. where are they looking, how quickly are they reacting?).
- Coach in and replay restarting moment if a player has risked possession
- Ensure restarts are from varied positions

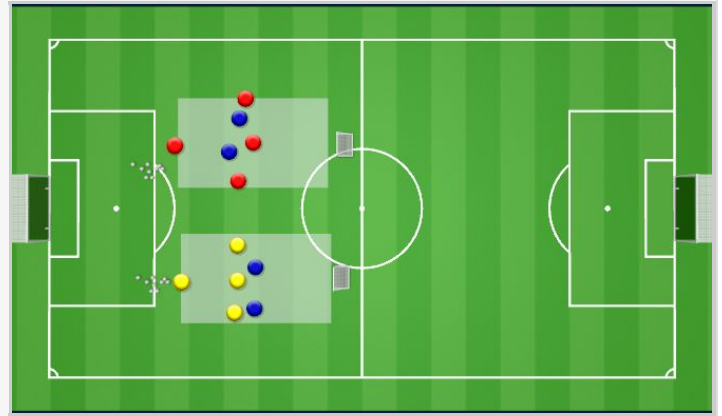

Drink Break:

Duration 4-minutes

Group discussion around restarting play with players

In our defensive half, we retain possession

In our attacking half, we are effective, cross, do quickly or shoot

Small Sided Games (30 mins)

Small Games

Area - One/Two small pitches

Time - 5-minute games with no rest in between

Focus - Restarting

Rules:

- Players demonstrate our game model principles
- Play always restarts from a free-kick from the perimeter of the area
- Rotate teams and have an overall winner

Coaching:

- Observe the restarts and the players decisions to retain the
