

UQFC - U9-U13 - Adapting - Session 2

Category: Tactical: Decision making practices

Difficulty: Moderate

Liam Mulcahy, Brisbane, Australia

Description

Main Principle: Adapting

Behaviour: Adjusting to the opponent or situation

Why? Training of principles and speeding decision-making within ever-changing moments.

Battle Rondo (20 mins)

1v1+2 Battle Rondo (Adjust numbers accordingly).

Area - 10x6m

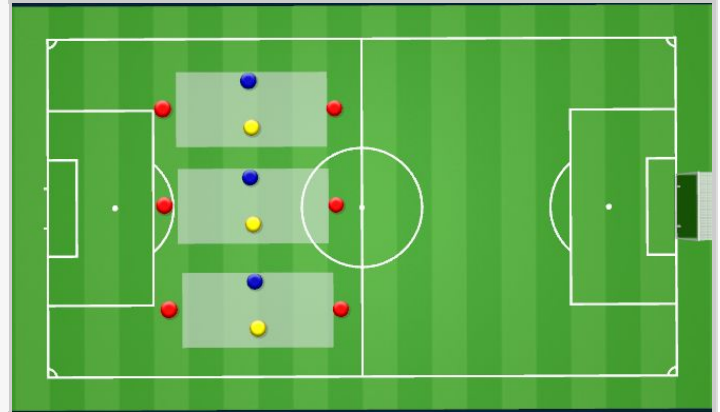

Time - 60 sec games, 2 battles per opponent of 4

Focus - Adapting

- Play starts with paper scissors rock to win first possession.
- Aim is for the player to receive the ball from one neutral, and play it to another neutral to score 1 point.
- Defender aims to steal the ball to become the attacker.
- Neutrals play to the person who played them the ball.
- After 60 sec, immediately swapping of players and the two neutrals now play.
- Players keep track of their score (3 points for a win, 1 for a draw), everyone plays an opponent twice.

Coaching

- Ask questions in between sets of 2 of how we can adapt quickly.
- What things can we think about when it comes to adaptation.
- How can we think in the future, to help us react quickly.

Positional Game (25 mins)

Positioning Game

Area - as diagram (use 7 or 9 aside goals)

Time - 3 x 5-minute sets with 2-minute rest in between

Action - Adapting

Behaviour - Adjusting to change

Rules:

- Divide players into two even teams
- Use two GKs (use players and rotate)
- The attacking team try and score into the goal in their area
- The defending team send in three players to prevent them from scoring (5v2)
- If the ball goes out or the defenders steal and transfer back to their side, then the attackers become the defenders in the other area
- If a goal is scored, the coach plays a ball into the other area to restart
- If the GK collects the ball, they throw it into the other area to restart
- Keep the score for each set

Progressions:

- Change amount of defenders into square

Player-led dynamics, stretches and accelerations between sets

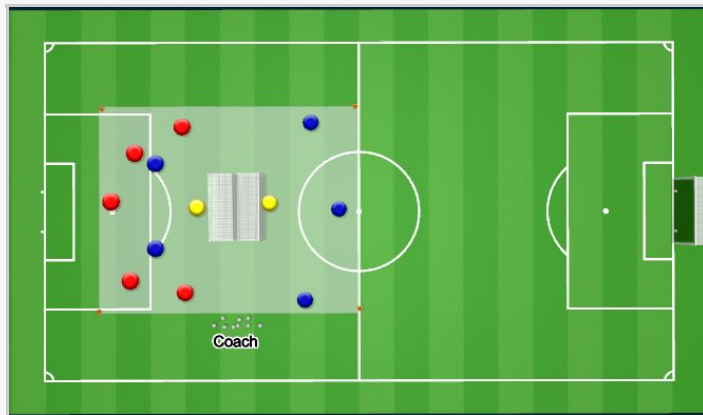

Coaching:

- Over the top to ensure club game model principles
- Chasing into the other area, recovering with your team to connect, defending, compact, patient, stealing the ball, attacking, being creative to score and flood the goal area
- Highlight the adapting of behaviour for the attacking or defending situations
- Players are challenged with constantly adapting

Water Break:

Duration 4-minutes

Discuss with players about our attacking and defending principles

Game (30 mins)

Game 6v6 (1-2-1-2 in-possession)

Area - half-pitch or full pitch

Time - 2 x 15-minute halves with 2-minute rest in between

Focus - Adapting

Rules

- Task each team with a match-day scenario (i.e. goals up/down, man up/down)

Coaching:

- Coaches stay out of the playing area
- Observe for previous learning transfer from the game training
- Reinforce game model principles or situation organisation and management
- Do not stop or continuously shout instructions
- Use the 2-minute break to question players about how they managed their teams situation

Session Recap

Question the players on match situations they have previously experienced

Ask how they will deal with these in the future
