

UQFC - U9-U13 - Counter Attacking - Session 1

Category: Academy: Counter/Reactive pressure

Difficulty: Moderate

Liam Mulcahy, Brisbane, Australia

Description

Main Principle: Counter Attacking

Behaviours: Breaking Forward Quickly

Moments:

When we steal back the ball from an opposition attack/set play

As we get the ball back during our recovery runs

If we steal back the ball after chasing the opposition in their build-out

Rondo - Transfer (20 mins)

Speed Rondo 4v1 + 1 (extra players can be a defender in the other half) - (7-a-side do either 2 games of 3v1+1 OR 5v2

Area - Rectangular (two areas)

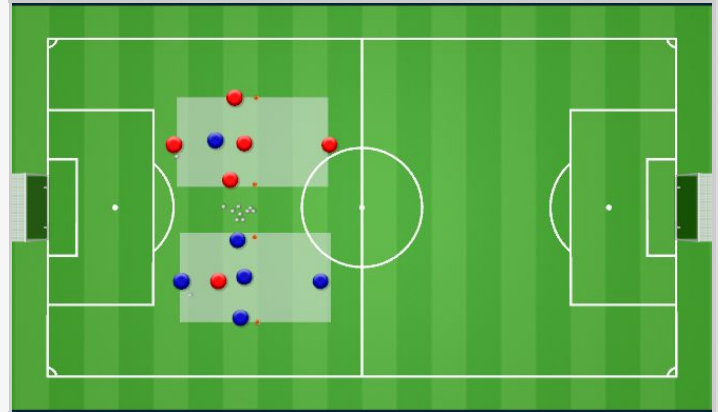

Time - 3 x 4 minutes with 2 x 30-second Dual Force/Speed Agility exercises between sets

Action - Counter Attack

Behaviour - Breaking forward at speed together

Rules:

- Normal club rules with defenders and the bibs
- Players collect balls and control the tempo of the rondo
- Attackers pass to the end player (baseline) in the other area to play on that side

Progression: (after first 4-minute set)

- If attackers pass to the end player on the baseline in the other area and they then pass back first time to a supporting attacker, then the defenders stay in

Dual Force - First Round

- Knights n Horses, in twos and one player piggybacks the other, each pair must ram/push the others outside of the one rondo area, 30 seconds.
- Knights n Horses, in twos as above but now drag another knight off their horse until one Knight n Horse remains

Speed Agility - Second Round

- Chain Race, in three or four teams, players race out to the end line, then return and grab their next player's hand to run to the end line, repeat for all players and the first team all back without breaking their chain and sitting down in a straight line wins, play three races

Coaching:

- Observe the speed of the players getting into the other area together
- Have fun with them in the chain racing

Water Break:

Duration 4-minutes

Positional Play (25 mins)

Counter Game (two teams)

Area - 40 yards by 30 yards

Time - 5 minutes non-stop, 2-minute recovery in between, do three sets

Action - Counter Attack

Behaviour - Breaking forward at speed together

Rules:

- To start, one player runs out from the baseline against one player from other team, if a goal is scored or misses the target, then another player runs on with a ball to counter attack two v one from that end
- You repeat this 2v2, 3v2, 3v3, 4,3, 4v4 and so on to 5v5
- Once all players are on, then work back down 5v5, 4v4, 3v3 and so on, then back up again
- If defenders steal the ball from the counter, they counter the other goal
- Do this for the full 5 minutes set
- Players need to counter attack together at speed

Progressions: (if needed)

- Players must all be in the attacking half for a goal to count

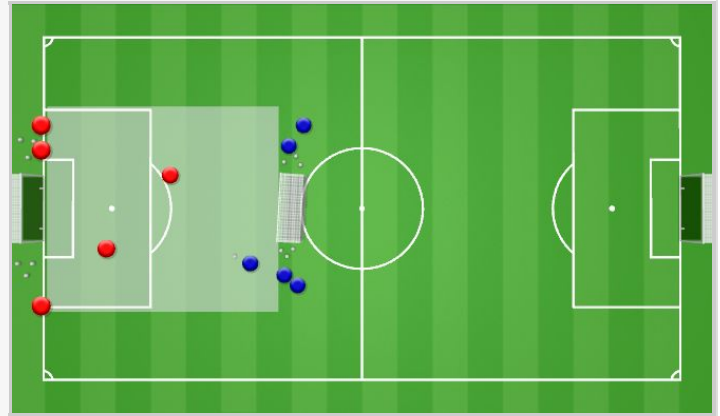

Coaching:

- Can we **flood** with numbers when we are in a counter attack.
- Can we attack with width and depth (always 1 player back to prevent opposition counter attack)
- Can we look to create overloads such as 2v1's to help us get past the attackers.
- Mention underlap/overlap motions to make defenders change lines.

Water Break:

6 minutes

Speak to individual players reinforcing how to counter attack

Small Sided Games (30 mins)

Small Games (3 teams) - Use big sided game only if not enough numbers

Area - 25 yards by 25 yards (double box)

Time - Continuous for 25-minutes (rotate teams after 5 minutes)

Focus - Attacking

Organisation - 3 teams, 2 teams play on big-sided field, 1 team plays internal 2v2 on small field

Rules:

- Use big and 7 aside goals
- GKs in big goals, sweeper keeper in 7 aside goals (no hands)
- Keep count of your team wins

Coaching:

- Be encourage of the **flood moment**.
- Ensure players still perform defensive behaviours (chase, trap, recover)
