

UQFC - U9-U13 - Trapping - Session 1

Category: Academy: Mid-block and press

Difficulty: Moderate

Liam Mulcahy, Brisbane, Australia

Description

Main Principle: Trapping

Behaviour: Force the opposition somewhere we can win the ball

Rondo 4v2 (20 mins)

Rondo 4v2 (adjust outside players to suit numbers) (7-a-side - Play one game of 7v3)

Area - Circular shape

Time - 3 x 4 minutes with 2 x 30-second Dual Force exercises between sets

Action - Setting traps

Behaviour - Surrounding the ball/opponent

Rules:

- Defenders hold bibs and drop when they retain the ball or are closest to the player that kicks it outside the area

- If a defender drops the bib outside the area or throws it and the new defender catches it, they are in again

- Defenders steal the ball, drop the bib and play. Any defender kicking the ball out remains a defender

- Players restart/collect balls from ball stations

Progressions: (after 4-minute set)

- Once defenders steal back the ball, they can run it outside the area, and three new players become the defenders if successful. All

- Non-defenders must react and surround the defender and steal back the ball before they escape the area

Dual Force - First Round

- Tug of War, in twos, the players face each other in the squat position and grab each other hands/wrists and pull them forward three steps for a point (30 seconds)

- Team Tug of War, split group into two teams who link hands and try to pull the other team over or past the line/cone (30 seconds)
The winners need to do a celebration dance

Dual Force - Second Round

- Push Outs, use both rondo areas, select three defenders who trap the other players, and push them out of the area together. Play until one player is left standing (play twice)

Coaching:

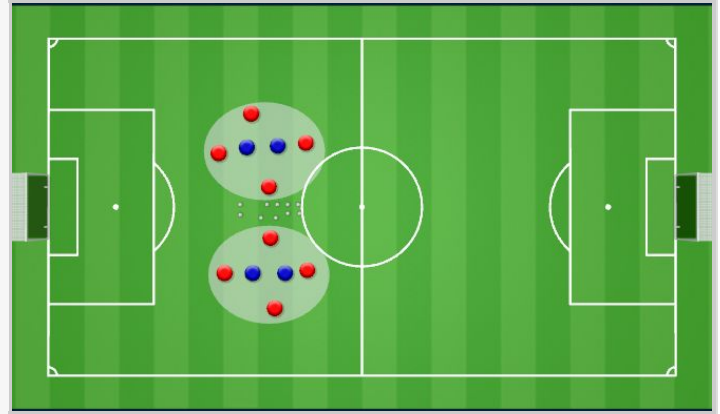

Observe the action of setting traps

Observe the behaviour of surrounding the opposition player with the ball

Over the top, motivate players to set traps together

Water Break:

Duration 4-minutes

2v2v2 Cross the River Positional (25 mins)

Positioning Games 2v2v2 Cross the River (7-a-side play 1 game instead of 2)

Area - Rectangle shape with 3m middle channel.

Time - 6 x 2 minutes games

Action - Setting traps

Behaviour - Surrounding the ball/opponent

Can swap mini goals with end-zones for scoring.

Rules:

- Progress the ball from your side to the other teams side to gain a point.
- Defending team must always have 1 person in the river zone, the other one aims to steal the ball.
- Defenders can swap out at any time to win the ball.

Progressions:

- Both players can enter into the teams zone.
- Screening defender can start inside the opposite half zone to steal the ball

Coaching:

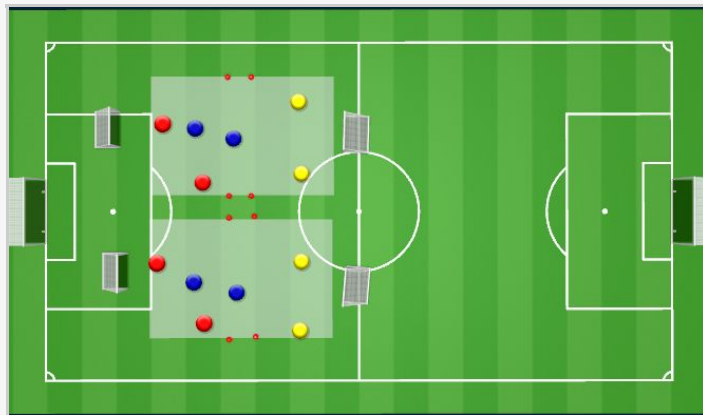

Ask Questions about when the right time is to trap.

- Where can we trap the opponent? What can we do as a pair to help trap our opponent?
- What can be some triggers to help us trap our opponent?
- Prevent the beyond ball first, direct the opponent, delay IF you think opposition can play through you.

Water Break:

Duration 6-minutes

Reinforce coaching moments with individual players

Small Sided Game (30 mins)

Small Sided Games

Area - 25 yards by 20 metres

Time - Team that wins 6 games

Action - Setting traps

Behaviour - Surrounding the ball/opponent

Rules:

- Red and blue score into the big goals, Yellow team are the resting time.
- Last man back GK's (Person closest to the goal can use their hands).
- Outside players can be tackled (play quickly)
- After one goal, the outside team sprints on together

Progression:

Now two goals before the outside team come on (player recovery time longer)

Coaching:

Praise players actions and behaviours on successful traps
Ensure outside groups coming in surround the ball quickly
